All water samples collected by the volunteers of Licking River Watershed Watch during 1998-2004
Analysis of fecal coliform by various certified laboratories
Analysis of E.coli by Morehead State University Water Lab
Compilation of September 15, 2004

Kentucky Water Quality Standards are:

"Good" = Less than 200 Colonies per 100 ml of water
"Swimming" Standard = 200 colonies per 100ml. (Exceedences in yellow)
"Boating" Standard = 1000 colonies per 100ml (Exceedences in orange)
Water Supply Standard =2000 colonies per 100ml (Exceedences in red)

Note 1: Kentucky regulatory standards are based on 5 samples obtained within a 30-day period
Note 2: "Good" = "Unimpaired"
Note 3 "Swimming" ="Primary Contact Recreation"
Note 4 "Boating" = "Secondary Contact recreation =
